Subject: Fwd: Columbia Falls Aluminum Facility Project

John and Mike,

See note from Congressman Gianforte's rep. We will ensure he receives our mailings.

Mary

Mary,

I will be unable to attend this evening as I am in granite county all day. Please keep me up to date with any future events. Would love to meet up with you folks when I'm up that way.

Kyle A. Riggs
Field Representative, Western Montana
Congressman Greg Gianforte
Work/Cell - (406) 830-0619

Dear Mr. Riggs:

I am the outreach coordinator for the Columbia Falls Aluminum Company (CFAC) site in Columbia Falls. As part of my responsibility, I facilitate a community-based group that meets with the company, its contractors and the agencies (federal and state) on a regular basis to discuss the remediation project.

I am with Ann Green Communications and apologize that we did not have you as our contact for Congressman Gianforte. In our records, we confused your office with Senator Daines' office. The US EPA project manager, Mike Cirian, corrected our mistake. Please accept my apology.

I am attaching a project update to this email, as well as membership list for the community group. (You will see the inaccurate notation of who is with Congressman Gianforte's office. This is being corrected by our firm's staff.) I am more than happy to answer any questions you may have and hope you will elect to participate as a panel member.

The group is touring the site this evening and if it is doable, we would love for you to join us. The tour will start at 5:30 p.m. You can respond to this email or just come to the plant.

Again, I apologize about the mix-up and look forward to meeting you in the future.

Kind regards,
Mary Green
